Weekly Dams Situation

CATCHMENTS RESERVOIRS - WEEKLY STATUS UPDATES

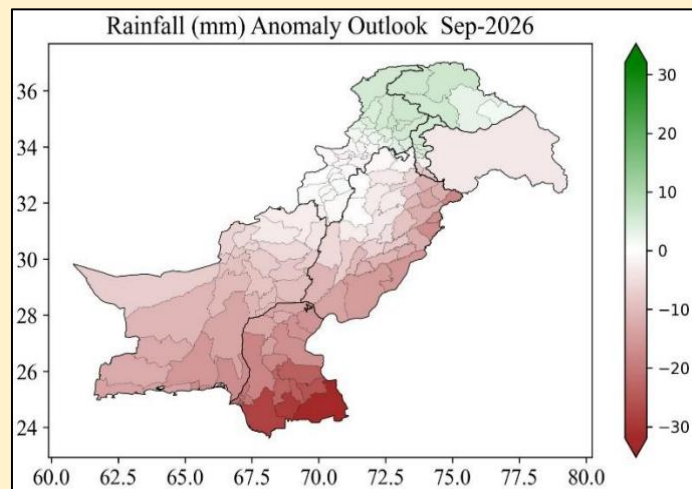

RIVERS	DAMS	MCL* (Feet)	Current Filled Status	Filled Percentage
INDUS	Tarbela Dam	1550.00	1547.77	98%
JHELMUM	Mangla Dam	1242.00	1221.65	78.6%
SUTLEJ	Bhakra Dam	1680.00	1639.62	61%
BEAS	Pong Dam	1390.00	1370.29	71%
RAVI	Thein Dam	1732.00	1687.14	58%

MCL* = Maximum Conservation Level

As per 0600 Hrs FFD Report:

- All the Rivers are flowing within normal limits.

MONTHLY OUTLOOK - SEPTEMBER

According to Met Department;

- Below-normal rainfall is expected over most parts of the country during September 2026.
- The highest negative anomalies are expected over central to southern Pakistan,.
- In contrast, near-normal to slightly above-normal rainfall is anticipated over the northern parts of the country.
- Above-normal temperatures across most parts of the country during September 2026.
- The highest probabilities are likely to prevail over central Punjab.

POSSIBLE IMPACTS

- Dry conditions are much supportive for harvesting particularly for cotton and peanut.
 - The reduced rainfall may fail to fulfill irrigation needs for seasonal vegetables and growing Kharif crops, particularly in Punjab, requiring supplemental irrigation.
 - Despite below-normal rainfall, isolated heavy downpours during the start of the season may still trigger flash flooding in mountainous areas of Punjab, urban flooding in big metropolitan areas and hill torrents in southern Punjab.
 - Above normal temperature along with rainfall spell may enhance probability flash floods, and landslides in mountainous and other vulnerable areas particularly during first half of the month
 - Spatial temperature gradient may cause strong winds, dust storms, and thunderstorm and hailstorms which may affect seasonal crops, vegetables, and orchards; farmers are advised to take precautionary measures to protect standing crops.
 - Dengue outbreaks are possible in flood-affected and poorly drained areas, particularly in urban and low lying regions of the country
- **Advisory for general public:**
- Farmers are advised to visit PDMA & PMD advisories on website before irrigation or harvesting.
 - Travelers and tourists are advised to remain cautious while travelling during rainfall events.
