Weekly Dams Situation

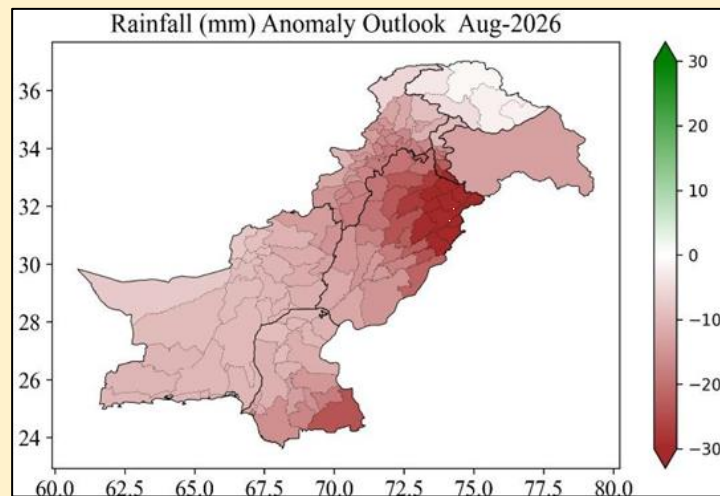

CATCHMENTS RESERVOIRS - WEEKLY STATUS UPDATES				
RIVERS	DAMS	MCL* (Feet)	Current Filled Status	Filled Percentage
INDUS	Tarbela Dam	1550.00	1550.00	100%
JHELM	Mangla Dam	1242.00	1208.40	66%
SUTLEJ	Bhakra Dam	1680.00	1608.54	43%
BEAS	Pong Dam	1390.00	1344.95	47%
RAVI	Thein Dam	1732.00	1677.69	50%

MCL* = Maximum Conservation Level

As per 0600 Hrs FFD Report:

- River Indus at Kalabagh is at **LOW FLOOD LEVEL**.
- Other Rivers are flowing within normal Flow.

MONTHLY RAINFALL OUTLOOK - AUGUST

According to Met Department;

- Below-normal rainfall is expected over most parts of the country during August 2026. The strongest negative rainfall anomalies are projected over northeastern and central Punjab.
- Mean temperatures are expected to remain above normal nationwide, with maximum departure over central to northeastern Punjab.

POSSIBLE IMPACTS

- **Below-normal rainfall** is likely to **reduce water availability**, increasing reliance on stored water and groundwater for agriculture.
- The reduced rainfall **may fail to fulfill irrigation needs** for seasonal vegetables and growing Kharif crops, particularly in Punjab, requiring supplemental irrigation.
- Despite **below-normal rainfall**, **isolated heavy downpours** may still trigger **flash flooding** in mountainous areas of Punjab, urban flooding in big metropolitan areas and hill torrents in southern Punjab.
- Prolonged intermittent gaps between the rainfall spells could significantly **increase the potential for heat stress**, especially over the plain areas of Punjab.
- Despite below-normal rainfall, **isolated heavy downpours may still trigger flash flooding** in mountainous areas of Punjab, urban flooding in big metropolitan areas and hill torrents in southern Punjab.
- **Spatial temperature gradient** may cause strong winds, dust storms, and thunderstorm and hailstorms which may affect seasonal crops, vegetables, and orchards; farmers are advised to take **precautionary measures to protect standing crops**.

➤ Advisory for general public:

- Farmers are advised to visit PDMA & PMD advisories on website before irrigation or harvesting.
- Travelers and tourists are advised to remain cautious while travelling during rainfall events.
