NEXT 24 HOURS WEATHER SITUATION

ACCUMULATED RAINFALL

Weather Forecast for Next 24 Hours (Tuesday)

Mainly hot and humid weather is expected in most districts of the province. However, rain-thundershower associated with windstorm/gusty winds is likely at isolated places in Murree, Galliyat, Rawalpindi, Attock, Talagang, Chakwal, Jhelum, Mandi Bahauddin, Gujarat, Lahore, Sheikhpura, Kasur, Sialkot, Narowal, Sahiwal, Faisalabad, Bhakkar, Pakpattan, Bahawalpur, Bahawalnagar, Multan and Dera Ghazi Khan during night hours.

RAINFALL OUTLOOK

No significant flood generating rainfall is expected over the upper catchments of all Major rivers

Meteorological Features (influencing the weather in next 24 Hours)

Yesterday's trough of the westerly wave, previously over northwestern Afghanistan, has moved to the northern part of the country. Moisture from the Bay of Bengal has penetrated the upper part of the country up to 3000 feet and is expected to strengthen in the coming days, while moisture from the Arabian Sea has been temporarily cut off. Light variable winds over most parts of Punjab are favorable for local convective development. A weak seasonal low is located over eastern Balochistan and adjacent areas, and a weak monsoon trough lies south of the Himalayan foothills.
