**This Disaster Management Plan has been developed based on the template provided by the Provincial Disaster Management Authority (PDMA) Punjab. It is intended to serve as a comprehensive framework for disaster management within the district. The plan emphasizes minimizing the impact of hazards on local communities by promoting a coordinated approach to risk management at the community level.**

**Furthermore, Lahore, the capital city of Punjab province in Pakistan, is a dynamic metropolitan hub known for its rich history, cultural vibrancy, and strategic economic importance. As the second-largest city in the country, Lahore serves as a key center for politics, education, commerce, and the arts. With a population exceeding 12 million, it stands as a critical urban district driving national development.**

**The district boasts a diverse infrastructure with well-established institutions, an expanding transportation network, and a growing industrial base. It is home to major business districts, prestigious universities, healthcare facilities, and cultural landmarks including the Lahore Fort, Badshahi Mosque, and Shalimar Gardens.**

**Lahore plays a pivotal role in Pakistan's economy, contributing significantly through its manufacturing sectors, particularly textiles, food processing, and information technology. Its status as a trade corridor and proximity to the India-Pakistan border enhances its geopolitical significance.**

**As Lahore continues to modernize, the district faces both opportunities and challenges in urban planning, environmental sustainability, and social inclusion. The city's leadership remains focused on initiatives for smart city development, improved public services, and sustainable growth.**

## AIM AND OBJECTIVES

The plan is aimed to manage emergencies by putting in place requisite mitigation measures and a well-coordinated and integrated response at district level.

The main objectives of the plan include:

- To develop a plan of action for the District Disaster Management Authority and other district stakeholders to set priorities and provide directions for disaster management;
- To define the roles of various stakeholders in disaster management in all the phases pre, during and after disaster;
- To raise awareness of stakeholders about disaster risks and the requirements for disaster management;
- To introduce coordination mechanism for immediate response and rehabilitation at district level;
- To enhance the effectiveness and timeliness of emergency response through the clarification of goals, strategies, roles and responsibilities;
- To strengthen response coordination between government departments and humanitarian organizations (UN agencies, I/NGOs)

## General Information

Particulars	Detail
<b>Neighboring districts and their vulnerabilities</b>	Sheikhupura and Kasur are neighboring districts of District Lahore. Possible vulnerabilities in the said districts are Earthquake, Flood, Cyclones, Smog and draught conditions
<b>Topographical Features</b>	Lahore is generally flat and slopes towards south and south - west at an average gradient of 1.3000. It can be divided into two parts i.e. the low lying area along the River Ravi and the comparatively upland area up in the east away from Ravi. The low lands are generally inundated by the river water during monsoon floods. River Ravi flows in the west of Lahore District forming a boundary with Sheikhupura District. The original physiographic features like channels remnants and levees have been destroyed or changed by the construction of urban infrastructure.
<b>Weather/Climate pattern</b>	Lahore features a five season semi - arid climate and the seasons are winter summer spring, autumn and monsoon. The hottest month of the year is June when temperatures routinely exceed 40 oC. The wettest month July, with heavy rain falls and evening thunderstorms with the possibility of cloudbursts. The coolest month January with dense fog. The mean maximum and minimum temperatures in summer are 48 ° C and 38 ° C and in winter 25 ° C and -1 ° C respectively The city's highest maximum temperature was 48.3 ° 118.94 ° F) recorded on May 30, 1944 and 48 ° 118 ° F) was recorded on June 9, 2007. The lowest temperature recorded in Lahore is -2.2 C, recorded on 17 January 1935

## Inclusion of vulnerable group (Pregnant Women, Lactating Women, Neonates and Person with Disabilities)

Disasters severely impact vulnerable populations, particularly those living in disaster-prone mouzas along rivers and hill torrents. Pregnant women, lactating mothers, neonates, and persons with disabilities face increased health risks, including maternal and neonatal complications, malnutrition, infectious diseases, and psychological distress. The Provincial Disaster Management Authority (PDMA) Punjab plays a critical role in disaster response by ensuring timely medical assistance and reducing health risks for these high-risk groups.

This Data Collection Performa has been developed to systematically gather essential information to assess the health, nutritional status, and specific needs of vulnerable populations in flood-affected and disaster-prone mouzas. The collected data will support effective disaster response and recovery efforts, ultimately reducing morbidity and mortality.

### Psycho-Social Support During Emergency

Psycho-social support during disasters like floods is important because it helps people cope with stress, fear, and loss. It provides emotional care, counseling, and community support to reduce trauma and anxiety. This support is especially crucial for vulnerable groups like children, the elderly, and persons with disabilities. It strengthens resilience, helps people recover faster, and rebuild their lives with hope and stability.

# COORDINATION MECHANISM

Coordination Organogram (including Sector lead agencies/departments, Military, NGOs and Volunteers)

### **Powers and functions of District Disaster Management Authority under NDM Act 2010:**

The District Authority shall be as the district planning, coordinating and implementing body for disaster management and take all measures for the purposes of disaster management in the district in accordance with the guidelines laid down by the National Authority and the Provincial Authority.

Without prejudice to the generality of the foregoing provisions, the District Authority may:

- a) prepare a disaster management plan including district response plan for the district;
- b) coordinate and monitor the implementation of the National Policy, Provincial Policy, National plan, Provincial Plan and District Plan;
- c) ensure that the areas in the district vulnerable to disasters are identified and measures for the prevention of disasters and the mitigation of its effects are undertaken by the departments of the Government at the district level as well as by the local authorities;
- d) ensure that the guidelines for prevention, mitigation, preparedness and response measures as laid down by the National Authority and the Provincial Authority are followed by all departments of the Government at the district level and the local authorities in the district;
- e) give directions to different authorities at the district level and local authorities to take such other measures for the prevention or mitigation of disasters as may be necessary;
- f) lay down guidelines for preparation of disaster management plans by the departments of the Government at the districts level and local authorities in the district;
- g) monitor the implementation of disaster management plans prepared by the departments of the Government at the district level;
- h) lay down guidelines to be followed by the departments of the Government at the district level;
- i) organize and coordinate specialized training programmes for different levels of officers, employees and voluntary rescue workers in the district;
- j) facilitate community training and awareness programmes for prevention of disaster or mitigation with the support of local authorities, governmental and non-governmental organizations;
- k) set up, maintain, review and upgrade the mechanism for early warnings and dissemination of proper information to public;
- l) prepare, review and update district level response plan and guidelines;
- m) coordinate with, and give guidelines to, local authorities in the district to ensure that pre-disaster and post-disaster management activities in the district are carried out promptly and effectively;
- n) review development plans prepared by the departments of the Government at the district level, statutory authorities or local authorities with a view to make necessary provisions therein for prevention of disaster or mitigation;
- o) identify buildings and places which could, in the event of disaster situation be used as relief centres or camps and make arrangements for water supply and sanitation in such buildings or places;
- p) establish stockpiles of relief and rescue materials or ensure preparedness to make such materials available at a short notice;
- q) provide information to the Provincial Authority relating to different aspects of disaster management;
- r) encourage the involvement of non-governmental organizations and voluntary social-welfare institutions working at the grass root level in the district for disaster management.
- s) ensure communication systems are in order and disaster management drills are carried out periodically; and
- t) perform such other functions as the Provincial Government or Provincial Authority may assign to it or as it deems necessary for disaster management in the district.

### **District Plan:**

- a) There shall be a plan for disaster management for every district of the Province.
- b) The District Plan shall be prepared by the District Authority having regard to the National Plan and the Provincial Plan.
- c) The District Plan shall be reviewed and updated annually.

**Additional Powers of District Authority:**

For the purpose of assisting, protecting or providing relief to the community, in response to any disaster, the District Authority may:

- a) give directions for the release and use of resources available with any department of the Government and the local authority in the district;
- b) control and restrict vehicular traffic to, from and within, the vulnerable or affected areas;
- c) control and restrict entry of any person into, his movement within and departure from, a vulnerable or affected area;
- d) remove debris, conduct search and carry out rescue operations;
- e) provide shelter, food, drinking water and essential provisions, healthcare and services;
- f) establish emergency communication system in the affected area;
- g) make arrangements for the disposal of the unclaimed dead bodies;
- h) direct any department of the Government of the Province or any authority or body under the Government at the district level to take such measures as are necessary in its opinion;
- i) require experts and consultants in the relevant fields to advise and assist as it may deem necessary;
- j) procure exclusive preferential use of amenities from any authority or person;
- k) construct temporary bridges or other necessary structures and demolish structures which may be hazardous to public or aggravate the effects of the disaster;
- l) ensure that the non-governmental organizations carry out their activities in an equitable and non-discriminatory manner; and
- m) take such other steps as may be required or warranted to be taken in such a situation.

**Revenue Department (Functions and Responsibilities)**

In case of any disaster or calamity the head of the revenue department in the district i.e. the DC/DC should ensure that the following measures and steps have been taken:

- Taking everyone on board is perhaps the most important thing to do. Regular meetings of DDMA should be held to clearly highlight the roles and duties of DPOs, EDOs, XENs etc.
- Pre-flood meeting should be held and duties of all concerned officers and departments should be clearly defined and assigned.
- A district disaster management plan should be prepared using the set template and updated regarding any disaster or emergency that may strike the district.
- A focal person for the disaster or calamity should be nominated and his/her number should be communicated to all concerned departments.
- Proper stock taking should be done regarding available stocks of food and rations. Similarly stock regarding machinery and equipment should also be taken and inventories should be prepared. Out of order machinery should be repaired or replaced.
- Committees should be formed and constituted which will deal with various functions during a flood or emergency. Purchasing of food items, food, and machinery should all be done through committees.
- Identification of Low lying, medium and high vulnerability levels with flood level
- In case of evacuation the district administration should be very clear about the places where the relief camps or shelters will be established. Teams should be formulated which will look after these camps and will be in-charge for provision of tents, food, water and maintaining general law and order. Provision of cooked food is also to be ensured.
- Proper ware houses and stores should be made available for storing of aid and donated items that may be received from authorities such as PDMA, WFP etc. A committee should be constituted to look after the record of all the items in the store.
- Proper crop surveys or girdawaris should be conducted through the revenue officials so that crop damage assessment can be made after disaster or flood affects the district. These surveys will also help in determining the identity of the true owners as well.

- Post damage assessment should be carried out by joint teams constituted of patwaris, teachers, and agriculture field assistants. Technology should be involved and android sets should be used to gather accurate data.
- Round the clock active control rooms should be set up and the numbers be circulated to all concerned. The control rooms should be equipped with wireless, telephones and computers. All info gathered or received should be conveyed to the concerned. The control room should have representatives of concerned departments such as police, health, 1122, and revenue.
- Early warning is critical in saving lives. The local revenue officials along with local police should be deployed to warn the people against the oncoming disaster and to urge them to vacate the disaster prone areas and villages. Loudspeakers, mosque speakers and word of mouth should be used. Banners and posters can also be used.
- Data collection is of prime importance and the senior network administrator should be declared as the focal person for collection of relevant information such as number of casualties, damages to infrastructure, injured, perished livestock etc. for onward submission to PDMA etc.
- Mock exercises should be carried out along with all concerned departments specially 1122, Police, civil defence and Pakistan army regarding the action plan during any emergency or flood. This will give a fair idea about the preparedness of the district.
- Availability of vehicles should be ensured for use during any emergency especially off road vehicles like jeeps.
- Suitable locations should be identified for accommodating armed forces like the Pakistan army. Normally schools, colleges or stadiums are allocated for the armed forces

#### **Checklist for Revenue Department:**

Survey of entire District (Preparation of Village level information by Patwari)

Identification of Low lying, medium and high: vulnerability levels with flood level

Liaison of Patwari with Numberdars of their respective villages

Contacts of all revenue staff posted near river belts and their output in floodprone areas

List of Numberdars with their contacts, volunteer from low lying settlements with contact numbers

Prepare list of vulnerable villages and make an estimate of likely affected population in such villages in the event of flood

Name and contact numbers of private boat owners and operators Announcement of Flood Warning at settlement level – Patwari responsible Forced evacuation with police

Rapid assessment for relief goods and ration provision Coordination and reporting

Carry out survey of entire flood affected areas to assess losses in collaboration with Agriculture, Livestock and Education Department

Conduct crop damaged/ house damaged surveys

#### **Metropolitan / Municipal Corporations**

##### **Municipal / Town Committees**

- Local Bodies play an important role of providing municipal services in the district including clean drinking water, sanitation facilities, maintenance of parks and removal of encroachment etc.
- Local Bodies will provide assistance to the District Administration for setting up and management of relief camps/ operations.
- Local Bodies are responsible for provision & restoration of water and sanitation facilities in their municipalities besides disposal of waste or rain water/sewerage.
- Local Bodies are equipped with trucks, water bowsers, tractors, dewatering sets, bulldozers, loaders and dump trucks. All of these equipment are utilized to restore proper sanitary facilities, ensure the delivery of clean water and remove debris or excess water.

- Local Bodies sanitary workers can be employed for cleaning relief camps, or other such areas which has been affected by any disaster.
- Local Bodies employ de-watering sets to remove excess water. All Local Bodies are required to ensure the maintenance of all dewatering sets prior to the monsoon season. The Local Bodies maintains a list of all the choking points where rainy water accumulates as a result of heavy storms which can cause urban flooding.
- Local Bodies should ensure supply of clean drinking in overhead reservoirs and ensure supply to the affected areas or relief camps through water bowzers. Clean drinking water is a major issue and requirement during any disaster.
- In case of any disaster that requires people to be relocated, the Local Bodies under the concerned Administrator i.e Commissioner / DC/AC will assist in the migration of the affected people.
- During the relief effort and subsequent rehabilitation effort the Local Bodies manpower can be effectively used for the distribution of food and essential commodities among evacuated people or any other relief activity such as provision of cash compensation.

### **District Disaster Management Authority (DDMA)**

- DDMA's are created under the NDM Act 2010 under Chapter IV Section 18 and the law defines their composition and also outlines their functions, duties and powers.
- District Disaster Management Authorities are the first line of defense and the implementing arm of the government policy and plans. Within the district there are three to four key players/departments that have to put up a joint and coordinated effort in order to fight with and handle any disaster under the leadership and coordination of the DC. The office of the DC fully supported by the DPO and line departments such as Health, Agriculture, Livestock, Civil Defence, 1122, Local Bodies and the Revenue Department form the main disaster management team within any given district. This plan is an effort to highlight their sets of responsibilities followed by the role of provincial departments.
- All district administrations had prepared a detailed contingency plan to face any disaster or hazard specially floods which until recently have become an annual affair for some districts.
- The district administration will divide the area as per district division with the Assistant Commissioner as in charge of his/her tehsil. All disaster related activities in a said tehsil will be coordinated through the concerned AC and the Local Bodies.
- On receipt of a flood warning, immediate warning will be conveyed to all the concerned officers. Immediate action will be taken in each sector / sub sector for evacuation of the population from risk prone areas to safer places or to Relief Camps. An Assistant Commissioner will ensure that announcements are made through loudspeakers of the mosques utilizing the services of the Revenue department. Each Patwari will inform the Numbardar, Headmaster of the School, Imam Masjid and councillors to make announcements etc.
- The tactical operations would be headed by the Additional District Collector (ADC). The ADC would be responsible for coordinating and supervising the disaster control and relief measures in the district.
- Provincial government had notified the following composition of DDMA's for whole of the province:
  - i. **Deputy Commissioner (Chairperson)**
  - ii. District Police Officer
  - iii. Additional Deputy Commissioner (Rev)
  - iv. Two Elected Representatives to be nominated by the Chair
  - v. Representative of Pak Army

- vi. Two Representatives of NGOs/Civil Society to be nominated by the Chair
- vii. Additional Deputy Commissioner (General)
- viii. Additional Deputy Commissioner (F&P)
- ix. XEN Buildings
- x. XEN Highways
- xi. Chief Executive Officer (DHA)
- xii. Chief Executive Officer (DEA)
- xiii. SP Special Branch
- xiv. XEN Irrigation / Public Health
- xv. District officer Civil Defense
- xvi. Administrators of Tehsil Councils / Municipal Corporations
- xvii. All Chief Officers of Local Bodies in District
- xviii. District Emergency Officer, Rescue 1122 (Secretary)
- xix. Representative of Red Crescent
- xx. Such other District level Officers to be appointed by District Administration

- District Administrations must establish a Disaster / Flood control room at the DC's office, the numbers of which will be circulated to all concerned. The Disaster / Flood Control Room has to maintain updated information regarding the threat of disaster and statistics post disaster. The center will maintain a regular communication with the Flood Forecasting Division or the dam authorities up stream in case of a flood.
- The District Administration would immediately mobilize the equipment needed to tackle the challenges created by a disaster. The District Administrations will provide a comprehensive list of flood fighting equipment to PDMA as part of their flood contingency plans.
- Executive District Officer (Health) will ensure the availability of adequate medicines for treatment of common issues, particularly for snake and dog bite cases and general vaccines at each relief camp.
- DO (Agriculture) and DO Livestock would arrange fodder and feed supplement for livestock and animals displaced.
- District Regional Transport Authorities (DRTA) in all 36 districts of Punjab are managed by Secretaries who would coordinate with local transporters to arrange for arranging transport required for evacuation of people from affected areas. In case of shortfall in transport in a particular district, the adjoining district would mobilize the transporters in his district to assist with the evacuation of people.

#### **Role of Rescue 1122 in districts during disaster**

- The immediate evacuation of people from the disaster prone and vulnerable areas.
- Provision of immediate medical aid during any emergency and at the same time transporting the injured or sick to the nearby hospital through their team of ambulances.
- In flood situations rescuing people from drowning in the strong currents is a specialty of 1122 as it has its own set of divers and boats. Similarly in case of collapsed buildings or structures the 1122 is equipped with heavy machinery to cut through heavy debris.
- Apart from that responsible deployment of fire fighters, cordoning of hazardous areas, provision of first aid and medical treatment, immediate search and rescue of victims and management of the pre-hospital emergency system.
- Rescue 1122 is well trained in setting up medical camps for provision of emergency medical treatment. These camps are setup by Rescue 1122's doctors and paramedic staff.

**Pre-disaster Check list for DDMA**

Meeting of DDMA held

- Identification of vulnerable areas
- Identification of Safe places
- Preparation of contingency plan
- Bunds and encroachments visited

Sites identified for relief camps Evacuation routes/plan

Safe custody of Government records and essential equipment and their shifting to safer areas on receipt of flood warning

- Enlistment of department wise available resources
- Preparation of list of required relief goods/ items
- Involvement of Volunteers, NGOs and other CSOs
- Designation of Focal Person

Preparation of District vulnerability map with varying degrees of floods  
Evacuation well in time from vulnerable areas

Establishment of Camps – All services under one roof

Flood warning and weather forecast: Loudspeakers announcements  
Establishment of control rooms

Cancellation of all type of leaves of all employees Designation of Focal Persons  
Assignment of duties and responsibilities of all officers for flood emergency

Preparation of Telephone Directories with the cell numbers of all the members of DDMA's and volunteers  
No leave during flood days; No official will leave station

**Disaster Emergency Control Room (functions and responsibilities)**

1. Coordination among all agencies.
2. Hub of communication during disasters to deal the disaster more effectively and efficiently.
3. Collection of all relevant data from all supporting agencies.
4. Issuance of disaster reports on the basis of the collected data during the disaster.

**Checklist for Control Room:**

- Dedicated Staff as per magnitude of the disaster Duty roaster of the staff
- 2 Dedicated telephone lines
- Dedicated Fax
- Wireless
  - Internet and Email or any other source of communication
  - Power backup

**Checklist for Relief Camp Incharge:**

- List of staff displayed with name and department teams will work in shifts
- Presence of representatives of all service providers i.e. Health, livestock, Rescue 1122, Civil Defence etc.
- No movement without the permission of Centre Incharge
  - Each shift in-charge to contact District Control Room on arrival and then on departure
  - In-charge will keep close liaison with SHO of the respective area
  - No of affectees in camp (sick, aged and children) shall be communicated daily
  - Availability of at least one emergency vehicle at center be ensured
  - Keep record of private boat owners and their contacts details
  - List of Doctors and private hospital in the vicinity
- List and contact of philanthropists in the vicinity

Keeping record of donations coming directly to Centre and report the same to Tehsil and District Incharge.

Centre Incharge shall ensure vaccination of animals and humans against Communicable diseases  
List of missing persons must be displayed at all Relief Camps

### Role of Health Department

The public sector health delivery system comprises of four tiers and as such will continue to provide services at these four tiers during and after any disaster:

Outreach and Community Based Activities, which focus on immunization, sanitation, malaria control, maternal and child health, and family planning. Primary care facilities include BHUs, RHCs. THQs and DHQs provide inpatient and outpatient care. Tertiary care hospitals located in the major cities for more specialized care.

In case of any disaster or calamity the health department will ensure that the following measures are in place;

- To provide first aid to the injured people and arrange evacuation of patients for further assistance.
- Medical camps and mobile health teams should be arranged for prevention and control of communicable diseases, immunization and provision of essential drugs.
- Health department would make a roster of all medical officers and paramedics that would be deployed to these camps and teams.
- Drugs and other medical equipment should be available at all these camps and with mobile teams. The medicine should be for relevant flood related issues, **particularly Anti-snake venom, Anti-rabies.**
- The shelters or relief camps established by the district administration should have medical centers with ambulances and special facilities for women and children.
- An emergency control room will be established in the office of Directorate General Health Services and a representative of this emergency control room would be designated to PDMA's control room.
- A list of essential medicines would be prepared by the Health department and it would ensure that medicines and other resources are present in sufficient stocks in hospitals in disaster hit areas.
- Medical colleges may be involved to create Emergency Response teams
- Health department would also coordinate with international organizations such as WHO and UNICEF.
- Extensive disease surveillances in the disaster hit areas should be carried out warnings if needed be issued through the Disease Early Warning System.
- Medical teams and paramedic staff should be mobilized and deployed for rapid assessment and quick response in the affected areas.
- A contingency plan will be prepared and submitted regarding preparedness for any disaster or calamity.
- The National Disaster Management Authority has designated WHO as the key organization that will fill the gaps in the supply of medicines, rapid diagnostic kits, and vaccinations etc.
- The department would employ female health workers in emergency areas specially, for spreading awareness regarding health risks in a disaster and for any vaccination or immunization programme that may be needed during any emergency.
- A Health and Nutrition Cluster for overall management and oversight of Health department's disaster response would be formed at the Directorate General Health office.
- In case the medicine stocks or even the infrastructure is damaged due to floods, the department would draw up a plan for early recovery of health infrastructure and service delivery.

### Civil-Military Coordination Mechanism

The Deputy Commissioner office will engage the Army in any disaster requiring the manpower or rescue equipment of the Army. This will happen on the basis of analysis of the magnitude and type of the disaster took place.

**Volunteer Network**

There are 100 volunteers registered with Civil Defence can be engaged by Civil Defence department in any disaster as per requirement.

# RISK ANALYSIS

## 1. Potential hazards of the district

Hazards	Likelihood (Score 1-5)	Impact (Score 1-5)	Risk
Floods	2	2	Low
Urban Flooding	3	2	Low
Flash Floods	-	-	-

Low : 1-7  
 Medium : 8-14  
 High : 15-25

## 2. Hazards

- The main hazard to the district Lahore is from floods due to high level of water in the Ravi River touching almost **60 kilometers** long border of the district.

District detail map with vulnerable points including (Rivers, Nullahs, Hill Torrents, Wheat Gowdowns, hazards, planned camps, health facilities, warehouse

### 3. Response & Operational Capacity

1. The main capacity of the district for handling any disaster is the Rescue 1122 department which has been declared Punjab Disaster Response Force by the PDMA.
2. There are almost 1350 trained Rescuers with the Rescue 1122 who can handle drowning emergencies, fire incidents, road traffic accidents, other major incidents and disasters like floods, environmental disaster, building collapse etc.
3. Another main capacity of the district is the police department. The police staff deputed in any disaster is the key element for the evacuation of the victims to the safe places/ relief camps. The police department is also responsible for provision of security to staff of other agencies working in the disaster area.
4. Civil Defense with large number of its volunteers is another strong capacity of the district during the disaster.
5. Health department is responsible for providing first aid facility to victims alongwith the Rescue 1122.
6. Education department provides the buildings of schools situated in the disaster areas for relief camps.
7. Irrigation department with its heavy machinery & equipment provides the service of strengthening of embankments, construction of usable routs within flooded areas and it continuously keeps any eye on the water level in rivers and canals.
8. Revenue department with other government departments look after the provision of food, drinking water etc to the victims and for the assessment of damages resulted by the disaster to the disaster prone areas.

## 5.Gaps and Constraints

1. Rescue 1122 department has been declared Punjab Disaster Response Force by the PDMA have almost 1350 trained Rescuers who can handle drowning emergencies, fire incidents, road traffic accidents, other major incidents and disasters like floods, environmental disaster, building collapse etc. These rescuers are designated as EMTs, Fire Rescuers, DERT (Disaster Emergency Response Technician) Rescuers, Drivers and other administrative staff. Dedicated water rescue staff is strongly required in the district so that in case of water rescue operation, other operations of the service in the district could not be affected.
2. There is a communication of gap between departments regarding exchange of data during rescue operation of the disaster. It must be eradicated so that any ambiguity and duplication could not damage the data and important reports by the departments.
3. Logistic means are not available in proper manner for the transportation of staff, boats and other rescue equipment to the disaster areas. For example: Rescue 1122 is operational in all four tehsils of the district and providing rescue & relief services during flood season every year. The transportation of boats to the flooded areas very important but Rescue 1122 has only one boat carrying trolley which is available with tehsil Lahore. Transportation of boats by other means is damaging the boats.

WASA Lahore Infrastructure includes sewerage network of 5187 km, 6 primary drains that are connected to 14 major disposal stations and 106 No Lift stations to take storm water and safely dispose off in river Ravi. There are almost 24 No. sore points in Lahore city where rain water gets accumulated                      (ii)To cater storm water of Lahore during monsoon, staff (6000 no.) of WASA Lahore work efficiently for clearing rain water from all sore points in least possible time by the help of relevant machinery (sucker, dewatering sets etc.).                      (iii) For further improvement in drainage sector, mega projects are in progress which will further reduce retention time. For example , project entitled as "Storm water drainage system from Haji Camp to River Ravi via Laxmi Chowk, Mcloeod Road, Nabha Road, Chauburji and Sham Nagar Lahore" shall be completed well before the next monsoon season and will have huge impact on drainage of Lahore                      (iv) All equipment that is required to maintain water supply, sewerage and drainage services is functional and positioned within concerned sub divisions to provide immediate relief to consumer 24/7. # EARLY WARNING

## Information Flow Diagram

## Alertness Levels

Following four levels alertness have been established:

**Level-D  
(Disaster threat  
is perceptible)**

DDMA shall conduct monthly meetings besides atleast 2 mock exercises as per DDMP, well in time, to make the concerned officers/officials understand their role and responsibility for better coordination and testing of rescue and relief equipment. DDMA shall also ensure the physical presence of concerned staff deputed and availability of equipment/resources for all designated vulnerable sites within given time frame during disaster. Vulnerable site’s inspections and necessary works/action shall be carried out as mitigation measures.

**Level-C  
(Alert)  
(Warning issued  
but likelihood  
of occurrence is  
less than 100%)**

**Activities to be undertaken in level D**

+

DDMA shall issue “**alert**” to all concerned for the vulnerable area. DDMA and LDMA (tehsil level) control rooms be made operational 24/7 and ensure availability of all required (available and additional) resources for on call mobilization and monitor the situation 6 hourly. Only DC and DPO shall grant leave according to the situation.

**Level-B  
(High Alert)  
(Disaster threat  
is imminent)**

**Activities to be undertaken in level C**

+

DDMA shall issue EW to all stakeholders and “**High Alert**” for the district to ensure that all additional HR and material resources including volunteers has reported to their assigned duties, and all resources for evacuation and disaster management have been mobilized as per DDMP. All emergency (health, fire, rescue 1122, LOCAL BODIES etc) facilities shall work 24/7 with full staff strength. DDMA shall monitor the situation on hourly basis.

**Level-A  
(Red Alert)  
(Disaster is  
materialized)**

**Activities to be undertaken in level B**

+

DDMA shall respond to the emergency immediately and shall carry out rescue and relief operation as defined in DDMP and shall continuously monitor the situation. Resources of adjoining districts shall be mobilized and Army may be called keeping in view the magnitude of the disaster.

### Early Warning

*Early warning will be communicated via any possible and available means such as announcements in the mosques, mobile announcement teams, patwaris, SMS, print & electronic media etc.*

### **Flood Forecasting and Early Warning System**

The Flood Forecasting and Early Warning System is initiated by the Irrigation Department, with support from Patwaris and announcements made via loudspeakers in mosques. The Master Control Room, operated by the Meteorological Office, issues forecast information to the District Emergency Operation Center (DEOC).

Rescue 1122 manages the Flood Control Room, which is responsible for disseminating alert information to residents in vulnerable areas. The District Emergency Control Room conveys flood warnings to residents of low-lying areas using sirens installed along the River Ravi. It also plays a crucial role in ensuring coordination and communication among all relevant stakeholders.

Upon receiving a pre-alert from the District Flood Control Room, all concerned departments and agencies are placed on high alert. Their respective teams are promptly deployed to highly vulnerable low-lying areas to ensure timely response and safety measures.

### **DISTRICT EMERGENCY OPERATION CENTER (DEOC)**

A Central Control Centre has been established at the Deputy Commissioner's Office and the Rescue 1122 Headquarters in Lahore, under the command of the Deputy Commissioner and with the support of the District Emergency Officer, Rescue 1122. This Control Centre will serve as the primary hub for disseminating information to all concerned departments and will function as the operational headquarters for coordinating all emergency response activities. All relevant departments and emergency services will be integrated into this centralized system to ensure effective communication, coordination, and timely response.

## RESCUE STRATEGY

- *All relevant rescue relief agencies such as Rescue 1122, Police, Civil Defense, Environment, Irrigation and other concerned departments will be mobilized and engaged to do the rescue and relief operation in case of any disaster.*
- *All agencies will do their pre-defined jobs according to the plan provided by the local DDMA.*
- *If a disaster requires more manpower and other rescue support, the Deputy Commissioner will request to the local authorities of Pakistan Army.*
- *Camp sites will be identified by the education department at least two months before the flood season.*

---

## HUMANITARIAN ASSISTANCE

Damage and loss data resulting from river flooding shall be collected by the respective Assistant Commissioners and communicated to the Additional Deputy Commissioner (Revenue), Lahore. This information is then forwarded to the Deputy Commissioner, Lahore, for onward submission to the Board of Revenue, Punjab.

The priority needs of the flood- and earthquake-affected populations—such as food, shelter, healthcare, and other essential services—are identified based on recommendations from relevant stakeholders, including the Health Department, Education Department, Rescue 1122, Civil Defence, Building Department, and Revenue Department, Lahore.

Affected individuals will be relocated to designated relief camps by Rescue 1122, Civil Defence, and community volunteers. Food and healthcare assistance will be provided by the Revenue Department and Health Department. Similarly, rehabilitation needs of the affected population will be assessed and evaluated by these departments.

The Provincial Disaster Management Authority (PDMA) has issued standardized packages/kits for food and tentage requirements for disaster-affected individuals. All activities related to humanitarian assistance and monitoring are supervised by the Additional District Collector, in coordination with all relevant stakeholders. This approach ensures resource optimization, prevents duplication, and facilitates the identification of operational gaps.

All affected individuals are relocated to pre-designated relief camps located in schools. No separate camps are established, as the nature of the emergency in Lahore is flood-related and the current arrangements are sufficient to accommodate the affected population.

Lahore District possesses adequate capacity in terms of food, shelter, and medical supplies, sufficient to support a large number of victims for a period exceeding three months.

Regarding the humanitarian strategy with respect to protection, gender, age, environmental concerns, and other cross-cutting issues, the Lahore administration has taken comprehensive and proactive measures, including:

- a. Issuance of early warnings by Rescue 1122, Lahore.
- b. Rescue operations and relocation of victims to hospitals and relief camps by Rescue 1122 and Civil Defence volunteers.
- c. Establishment of relief camps in pre-designated schools and other facilities by the District Administration.
- d. Provision of humanitarian assistance through coordinated efforts of the Health, Education, and Revenue Departments.
- e. Ensuring effective coordination and communication among all stakeholders through the issuance of pre-alert warnings by Rescue 1122.

## ANNEX XII: CAMP MANAGEMENT SOPs

- Camps would be established in areas accessible by metalled roads so that provision of essential facilities is not difficult
- Basic facilities such as food, clean drinking water, health, hygiene and sanitation should be available at these shelters.
- Proper registration mechanism should be in place to differentiate between those actually affected and cunning opportunists
- Proper security system should be in place in coordination with the local police as the presence of police always acts as deterrence for criminals who may be attracted to such places.
- Emergency medical care should be available as well as a proper firefighting system as fire out breaks are common in such tents
- Proper camp management should be announced and notified and there should be a complaint cell as well
- A proper distribution mechanism should be in place to ensure that the needy get what they deserve.
- Scattered camps should be catered for and encouraged to join the main camp.
- At times shallow hand pumps are not safe for drinking as the water underground has been affected. In such cases clean medicated water should be provided through water bowsers.
- Vector control is an essential part of the camp management and steps should be taken to remove rats, snakes and mosquitoes etc.
- Un-accompanied and missing children shall be placed separately with proper care and fulfilment of their physical and psycho-social needs.
- Needs of women as per local and cultural environment shall be considered for establishing separate relief camps for ladies with provision of proper security and light arrangements.

## ANNEX XV: LIST OF BASIC TERMS

### **Acceptable risk**

The level of loss a society or community considers it can live with and for which it does not need to invest in mitigation

### **Biological hazard**

Biological vectors, micro-organisms, toxins and bioactive substances, which may cause the loss of life or injury, property damage, social and economic disruption or environmental degradation.

### **Capacity**

A combination of all the strengths and resources available within a community, society or organization that can reduce the level of risk, or the effects of a disaster.

Capacity may include physical, institutional, social or economic means as well as skilled personnel or collective attributes such as leadership and management. Capacity may also be described as capability.

### **Capacity building**

Efforts aimed to develop human skills or societal infrastructure within a community or organization needed to reduce the level of risk. In extended understanding, capacity building also includes development of institutional, financial, political and other resources, at different levels of the society.

### **Climate change**

The climate of a place or region is changed if over an extended period (typically decades or longer) there is a statistically significant change in measurements of either the mean temperature or variability of the climate for that region.

### **Coping capacity**

The means by which people or organizations use available resources and abilities to face a disaster. In general, this involves managing resources, both in normal times as well as during crises or adverse conditions.

### **Disaster**

A serious disruption of the functioning of a community or society causing widespread human, material, economic or environmental losses which exceed the ability of the affected community or society to cope using its own resources. It results from the combination of hazards, conditions of vulnerability and insufficient capacity to reduce the potential negative consequences of risk.

### **Disaster risk management (DRM)**

The comprehensive approach to reduce the adverse impacts of a disaster. DRM encompasses all actions taken before, during, and after the disasters. It includes activities on mitigation, preparedness, emergency response, recovery, rehabilitation, and reconstruction.

### **Disaster risk reduction/disaster reduction**

The measures aimed to minimize vulnerabilities and disaster risks throughout a society, to avoid (prevention) or to limit (mitigation and preparedness) the adverse impacts of hazards, within the broad context of sustainable development.

### **Early warning**

The provision of timely and effective information, through identified institutions, to communities and individuals so that they could take action to reduce their risks and prepare for effective response.

### **Emergency management**

The management and deployment of resources for dealing with all aspects of emergencies, in particularly preparedness, response and rehabilitation

### **Forecast**

Estimate of the occurrence of a future event (UNESCO, WMO). This term is used with different meanings in different disciplines.

### **Geological hazard**

Natural earth processes that may cause the loss of life or injury, property damage, social and economic disruption or environmental degradation. For example earthquakes, tsunamis, volcanic activity and emissions, landslides, rockslides, rock falls or avalanches, surface collapses, expansive soils and debris or mud flows.
