2018**

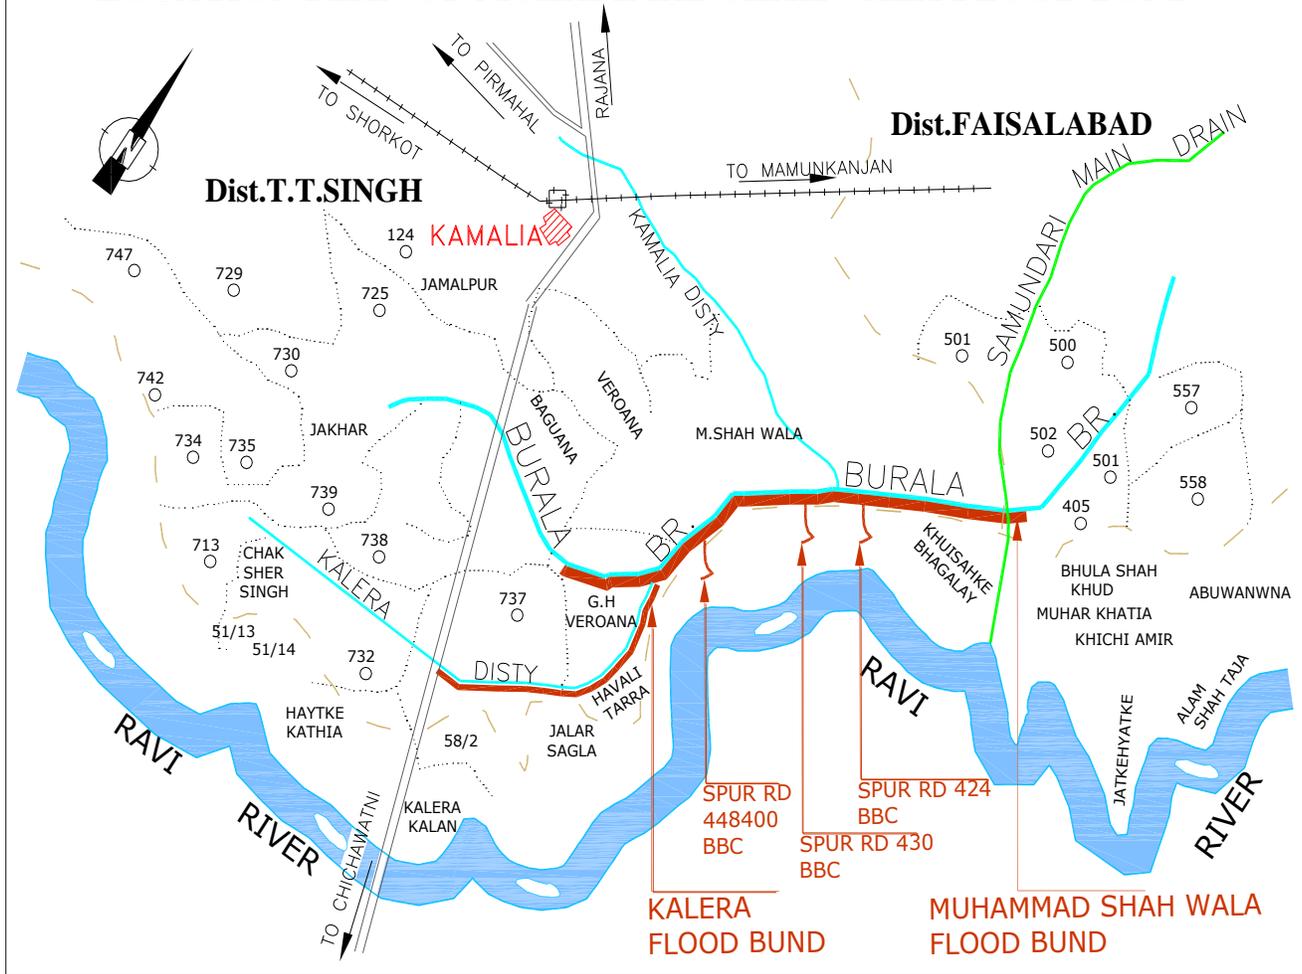

DISTRICT TOBA TEK SINGH

MAP OF DISTRICT TOBA TEK SINGH

LOCATION PLAN OF MUHAMMAD SHAHWALA FLOOD BUND

FLOOD FIGHTING PLAN

DISTRICT TOBA TEK SINGH 2018

BACK GROUND.

District TobaTek Singh appeared on the map of the Province of Punjab with effect from 1.7.1982. Previously it used to be a sub-division of Faisalabad District. The newly created district comprises of TobaTek Singh, Gojra, Pirmahal and Kamalia sub-divisions. Pirmahal has been given status of a Tehsil of District Toba Tek Singh w.e.f 24.1.2013. It stretches over an area of 3266.78 Sq.KM with a population of 17,10,785 souls.

TOPOGRAPHY:

Topographically, it is a vast level plain with average elevation of 500 ft A.M.S.L. and forms part of the Sandal Bar and Rechna Doab. It is bounded on the North by District Jhang and on the North-West by Tehsil Kabirwala, District Khanewal; on the Eastern and South-Eastern side, District Sahiwal stretches on the other side of the River Ravi. The South-Eastern and Eastern sides are bounded by Samundri and Faisalabad. Generally underground water-table in the District is high. A vast area of Gojra sub-division is already in the grip of water logging and salinity. The areas falling in Toba Tek Singh sub-division along Gojra sub-division are also being rapidly affected by water logging and salinity. Some portion of Kamalia sub-division especially Revenue Circle Darkhana has also been affected by water logging and salinity. The average rain-fall in the District is hardly 7.50" annually.

OBJECTIVE OF FLOOD FIGHTING PLAN:

Flood Fighting Plan contemplates a number of pre-flood and post-flood precautions and measures to combat the ensuing loss of lives and properties of the inhabitants of the flood affected areas in the District. It envisages preventing formidable sufferings of the masses and endeavours to mitigate the effects of this natural calamity to a humanly possible extent within the limited available resources at the disposal of the Government. While chalking out a Flood Fighting Plan the necessity of participation and cooperation of general public cannot be over emphasized. The havoc of flood is a large

scale and it cannot be controlled by the Government Agencies single handedly. The affectees of flood also need to be imbedded with the concept of caution and self help in times of need. In this District the most vulnerable flood point is Kamalia sub-division as experienced during the past.

SEASONS OF FLOOD:

The dates of floods are uncertain as they vary with the intensity of rains. However, the period between 15th June and 15th October every year can be taken as the most likely flood situation.

MAIN CAUSES OF FLOOD:

The main causes of flood in the past have been:-

- i) Heavy rain-falls in the catchment areas and the shallow beds and low-banks of River Ravi and streams.
- ii) Heavy rains in the flood-affected areas.
- iii) Limited drainage in the area due to flat land-scape of the District, which causes accumulation of water over a large area.
- iv) Existence of canals-irrigation channels drains in the area, which at places obstruct the smooth drainage of flood and rain water due to their high banks.
- v) Breaches in canals and flood protection bunds and over-flowing of drains are also the causes of floods in the surrounding low lying areas.

CLASSIFICATION OF FLOODS

- 1) **LOW FLOODS:** An indifferent overflow of water over low-lying areas, drains, river banks, which is not likely to do any damage.
- 2) **MEDIUM FLOOD:** Any rise in water level which would inundate higher tracts, but would not cause damage to protective works.
- 3) **HIGH FLOODS:** Any abnormal rise in level which would endanger protection works and may result in breaches causing damage in low-lying areas.

- 4) EXCEPTIONALLY HIGH FLOOD: In this situation, some times deliberate breaches may have to be resorted to in order to save precious asset of Sidhnai Head Works.

RIVER RAVI:

River Ravi runs close to Burala Branch on its left side in reach R.D. 410-448530 and then along KaleraDisty. KabirWala, Disty in the lower system of Burala Branch. In order to protect Burala Branch and KaleraDisty from river spill, Burala Branch in reach RD 410-448530 was converted into flood bund (Mohammad Shah Wala) in 1952 and the left bank of KaleraDisty in reach RD 0-26200 was also converted into flood embankment in 1975. KabirwalaDisty runs closer to R.M.B. of Sidhnai Barrage. The long spurs i.e. at RD-424 and 430 were constructed in 1979-80, giving a kick to river. But they are now threatening the bund at RD 445-447530 of Mohammad Shah Wala and KaleraDisty RD 0-2. In 1981 and 1988, the river hit Kalera Bund at RD 445-447. The Irrigation Department has repaired the Flood Protection Bund in order to meet any emergency during flood season.

FLOOD LIMITS OF RIVER RAVI.

| Place | Low | Medium | High | Very high | Exceptional |
|----------|-------|--------|--------|-----------|-------------|
| Jassar. | 50000 | 75000 | 100000 | 150000 | 200000 |
| Shahdara | 40000 | 65000 | 90000 | 135000 | 180000 |
| Balloki | 40000 | 65000 | 90000 | 155000 | 180000 |
| Sadhnai | 30000 | 45000 | 60000 | 90000 | 120000 |

The following information help in calculating the effects of floods on Mohammad Shah Wala and Kalera Flood Bund.

| Reach | Time Lag. | Distance. |
|-----------------------------|-----------|------------|
| Jassar-Shahdara | 24 Hrs | 55 Miles. |
| Shahdara-Balloki. | 24 Hrs | 65 Miles. |
| Balloki-Mohammad Shah Wala. | 60 Hrs | 150 Miles. |
| Balloki-Sadhnai. | 72 Hrs | 240 Miles. |

BUNDS AND EMBANKMENTS:

Whenever River Ravi over-flows its banks, it inundates small areas all along the fringes of the district, starting from Kamalia sub-division uptoSadhnai Barrage RD 3677, yet the severe damage is usually caused to Mohammad Shah Wala (MSW) RP 9592, Sultanpur RP 6281 and Darkhana RP 3685.

VILLAGES IN DANGER ZONE:

| Sr.No. | Name of Sector | No.of villages to be affected. | Population. |
|--------|----------------|--------------------------------|-------------|
| 1. | Kamalia. | 14 | 23,280 |
| 2. | Jakkar. | 44 | 63,330 |
| 3. | Pirmahal. | 13 | 35,936 |
| 4. | Darkhana. | 26 | 24,726 |
| | Total | 97 | 147,272 |

LIST OF VULNERABLE POINTS:

| Sr.No. | Name of Sector. | Valuable Points. |
|--------|-----------------|------------------------------------|
| 1. | Kamalia. | Bund Mohammad Shah Wala. |
| 2. | Jakkar. | i) Kalera Bundii) KabirWala Canal. |
| 3. | Pirmahal. | R.M.B |

BUND MOHAMMAD SHAH WALA:

This bund is about 7½ milelong. The left bund of Burala Branch from RD 410 to RD 408-500 is converted into flood embankment and the River Ravi flows close to it. The Irrigation Department is responsible for the maintenance and protection of this bund. In high flood the sight bund of Burala Branch is earmarked as bund as it is at high level, and safe from high flood and the public and cattle can have protection on the right bund during the emergency. Mohammad Shah Wala shall be kept cleared of the public and the cattle so that its proper watching and protection is carried out by the Irrigation Department.

KABIR WALA CANAL NEAR CHAK NO.734/GB.

In case of high flood the public and cattle can move to nearby right bund of Kalera Flood Bund and on to the Burala Branch. The inhabitants of Chak No.734/GB can shift to the right bank of KabirWalaDisty for their safety. The Irrigation Department is responsible for the protection of Kalera flood bund which runs parallel to KaleraDistyfrom its head to RD 25000 (Near Chichawatni - Kamaliametalled road). The protection of KaleraDisty is the sole responsibility of Irrigation Department.

JOOSA:

The inhabitants of Joosa village can move on to R.M.B. Sadhnai Head Works for safety. The R.M.B. Sadhnai Head Works is to be properly looked after by the Head Works Division of Sadhnai Head Works.

PRE SELECTED POINTS FOR RELIEF CUTS:

In case of danger to Sadhnai Head Works, relief cut is made on escape near Mauza Kachlamba. This escape is to be used under the directions of Canal authorities.

The villages to be affected are as under:-

- 1- 606/GB.
- 2- 697/GB.
- 3- 698/GB.
- 4- 699/GB.
- 5- 704/GB.
- 6- MauzaAkbarSahu.
- 7- MauzaJoosa.

EMERGENCY FLOOD CONTROL ROOM:

Flood Control Centre will be opened in the office of MC, Kamalia which shall function round the clock. A senior official with at least one Clerk shall work round the clock. A duty roster is to be prepared. A register is to be maintained, which will be used by a Senior Clerk to record all sorts of information regarding the flood situation. The water level gauge at Shahdara, Balloki, Sadhnai and Mohammad Shah Wala is to be recorded three times a day i.e. morning, afternoon and evening. The Control Centre will be equipped with upto dated information, with maps of the bunds and vulnerable points. Relief Centres and Relief Camps are also to be shown on separate charts. The incharge of Control Centre must be at least Naib Tehsildar, having all sorts of information regarding flood.

DRAINS:

Ravi River plays havoc in Kamalia whereas Gojra and Toba Tek Singh sub-Divisions are also not safe from torrents of rain-water overthrown by the drains. The average rain falls in the district remained, 7.50". But it rose to 11" during 1981. This district was hit indirectly by the floods in the drains running in District Faisalabad. From 1.7.1981 to 15.8.1981, an alarming situation arose. Keeping in view the ravage done by such drains, the present plan is chalked out to render possible help within available resources to the people of the adjoining Chaks. The drains which indirectly brought sorrows and miseries to the people of the district Toba Tek Singh are as under:-

SAMUNDRI MAIN DRAIN:

It is basically designed to take 771 Cs., but actual flow during 1981, went upto 3200 Cs/22.7.81. This drain did not enter into the revenue limits of the district. Sem-Nallah was excavated at the time of rehabilitation of District Lyallpur (Now Faisalabad). It started from Khurarianwala and by passing through the revenue limits of villages in sub-division Jaranwala slopes into sub-division TobaTek Singh. After 1947, Sem-Nallahfella prey to Colonization and its base was allotted to the Zamindars on tender scheme, and was hence demolished, but its traces remained alive inviting the flow of heavy rain water. Samundri main drain is excavated in the same route. Till Dijkot, this drain adopts the old course of Sem-Nallah, but therefrom, it turns towards Samundri, leaving the old path meant for draining out the storm of water. The diversion in the route, has left ever-lasting menace to the village falling on both the flanks of the Sem-Nallah. In 1981, it rung the bell of danger to the villages lying in its close proximity. Following villages of sub-division Gojra got badly hit by cringing ripples emanating from this drain which over-flowed near Dijkot:-

CHAKS OF GOJRA SUB-DIVISION.

| | | | |
|-----|--------|-----|--------|
| 1. | 367/JB | 2. | 366/JB |
| 3. | 158/JB | 4. | 159/JB |
| 5. | 160/JB | 6. | 161/JB |
| 7. | 162/JB | 8. | 163/JB |
| 9. | 371/JB | 10. | 368/JB |
| 11. | 285/JB | 12. | 518/JB |

CHAKS OF TOBA TEK SINGH SUB-DIVISION.

| | | | |
|-----|--------|-----|---------|
| 1. | 289/JB | 2. | 519/JB |
| 3. | 292/JB | 4. | 293/JB |
| 5. | 148/GB | 6. | 149/GB |
| 7. | 294/JB | 8. | 153/GB |
| 9. | 322/JB | 10. | 328/JB |
| 11. | 293/GB | 12. | 295/GB. |

Abadies of village's 292/JB, 289/JB, 519/GB, 328/JB were completely washed away.

MARCH CHINIOT DRAIN:

It runs on the North-Western boundary line of District Faisalabad. It is also known as "BudhWalaNullah" by the inhabitants of TobaTek Singh. It slopes into the revenue limits of District TobaTek Singh in estate of Chak No.345/JB affecting rather sometimes blocking Jhang-Faisalabad road at Bridge known as PulBudhWala. It flows on to the low-lying areas taking with it the matter stored in the catchment areas. Following villages are usually affected by this torrent of water:-

SUB-DIVISION GOJRA.

| | | | |
|-----|---------|-----|---------|
| 1. | 345/JB. | 2. | 344/JB. |
| 3. | 426/JB. | 4. | 423/JB. |
| 5. | 422/JB. | 6. | 421/JB. |
| 7. | 437/JB. | 8. | 433/JB. |
| 9. | 435/JB. | 10. | 439/JB. |
| 11. | 389/JB. | 12. | 357/JB. |

No village abadi is experienced to have been damaged, but the crops are always ruined. Chak No.432/JB was ruthlessly attacked. After leaving the villagers into the depth of calamities, this water enters into revenue limits of District Jhang. PAHIRANG NALLAH After causing formidable loss to the population of District Faisalabad, the uncontrolled water, runs towards Abbaspur and ends into the fields of village 98/JB (Cooli), where it becomes stringent, finding no further drainage. This village was put to dogs in 1981. This unruly water blocks GojraDijkotmetalled road, some five miles from Gojra City.

Following Sectors/Sub Sectors are suggested to cope with the adverse situation for Gojra and TobaTek Singh sub-divisions, but these can be changed by the Assistant Commissioner according to the ground realities:-

GOJRA SUB-DIVISION.

GOJRA SECTOR.

STAFF.

Headquarter at Gojra at suitable

1. Assistant Commissioner Gojra.
Place to be selected by Assistant Commissioner
2. Rep. of D.H.O.
3. Rep. of Livestock and Dairy Dev.
4. Rep. of Animal Husbandry.
5. S.H.O. Gojra.

(A) Sub Sector (union Council Office/
School Building).

1. Tehsildar, Gojra.
2. Rep. of D.H.O.
3. Rep. of Livestock & Dairy Dev:
4. Addl: S.H.O.

(B) Sub Sector (435/JB SchoolBuilding.

(To look after the villages bit by Marb
Climate drain known as Dudhwala
Nallah).

1. NaibTehsildar, Mohal.
2. Rep. of D.H.O.
3. Rep. of Livestock & Dairy Dev:
4. Rep. of Veterinary Assistant.
5. S.H.O. NiaLahore.

TOBA TEK SINGH SUB-DIVISION.

TOBA TEK SINGH SECTOR.

HEADQUARTER STAFF T.T.SINGH.

1. Assistant Commissioner Toba Tek Singh
 2. Rep. of D.H.O.
 3. Rep. of Livestock & Dairy Dev:
 4. Rep. of Veterinary Assistant.
 5. Rep. of Agriculture Department.
 6. S.H.O. Toba.
- PRIMARY SCHOOL.

SUB-SECTOR 328/JB.

1. Tehsildar.
 2. Rep. of D.H.O.
 3. Rep. of Livestock & Dairy Dev:
 4. Rep. of Veterinary Assistant.
 5. Rep. of Agriculture Department.
 6. Addl: S.H.O. Toba.
 7. Chief Officer, M.C. T.T.Singh.
- MIDDLE SCHOOL.

SUB-SECTOR 519/GB.

1. Naib Tehsildar.
2. Rep. of D.H.O.
3. Rep. of Livestock & Dairy Dev:
4. Rep. of Veterinary Assistant.
5. Rep. of Agriculture Department.

NOTE: Assistant Commissioner Gojra will be Relief Officer for Gojra; MC will be Relief Officer for Toba Tek Singh. Both of the officers will maintain Control Rooms in their offices. Staff will be on duty round the clock. The control room shall remain open till the emergency is over. Assistant Commissioner Gojra and Toba Tek Singh will be over all in charge of their respective Sub-divisions and will keep supervisory control over the arrangements.

RESCUE PARTIES.

The office of District Emergency Officer has been established in the district since 2009. In case of natural calamities in peace time, the department can be of a great help. It is the basic function of the District Emergency Officer to impart necessary training to the persons who are physically fit and at the same time willing-worker. In case of flood reaching the dangerous points, the earnest duty would be that of the personnel of his department. He must have in his custody, sufficient number of boats country boats belchas, ladders and other necessary equipments to be utilized for the evacuation of the marooned persons, cattle and their movable property. District Emergency Officer will arrange as many Rescue Parties as the flood sectors in the district headed by a person of his own department. The parties so arranged will be readily available at the call of the Sector Officer/Officers to meet any emergency occurring in any of the sector within the district. The list of sectors have already been provided in the Flood Fighting Plan. These are the places to be managed by the Sector Officer/Officers from where the marooned persons and their movable property will be rescued for onward escort to relief camp or

safer places District Emergency Officer will be having upto dated knowledge of the location and the routes (both pacca and katcha) leading to such points. If possible, he must have a rescue team deployed on each one of these points.

ROLE OF COs.

At the advent of dangerous situation caused by floods, the Chief Officers of all the Tehsil Municipal Committees shall pool-down the labour of their respective organizations at the headquarters so that any portion of labour may be easily and timely available. They will also take pre-arrangements for the carriage of such labour at the place where it is urgently required. Adequate equipments must be made available to such labour.

PART-II.

DISTRICT DISASTER MANAGEMENT
AUTHORITY

OBJECTIVE:

The fundamental objective of this plan is to save maximum number of lives and properties from any natural and manmade catastrophes. It also aims at achieving sustainable social, economic and environmental development in Toba Tek Singh through reducing risks and adverse impacts of disaster. This plan will describe how formations will respond to major accidents and to other calamities within the district by utilizing local resources with greatest efficiency. The plan, basically defines the area of responsibility of various line departments in a same work where they can operate jointly under the supervision of chairman of DDMA.

INTRODUCTION AND SCOPE:

Disasters have always caused heavy loss to life, property, infrastructure, and livelihood of people. Lack of resources, preparedness, planning and institutional or organizational capacity has previously resulted in increased losses. The purpose of this plan is to clarify the roles and responsibilities of different stakeholders, and to introduce coordination mechanisms for immediate response and for fast track rehabilitation. It classifies the small, medium, and large-scale disasters to articulate the corresponding response. It not only provides the operational directions at provincial or local level but also emphasizes an organized integrated support for the International Humanitarian Organizations and the mass media. This plan integrates the standard operating procedures (SOPs) of various departments and proposes a consistent approach for reporting the damage, needs and relief assessments.

DISTRICT DISASTER MANAGEMENT AUTHORITY.

The District Disaster Management Authority consisting of following members:-

1. Deputy Commissioner Toba Tek Singh. **(Convener)**
2. Chairman, District Council, Toba Tek Singh.
3. The District Police officer, Toba Tek Singh.
4. Two elected representatives to be nominated by the Chief Minister for each DDMA.
5. The Chief Executive Officer, District Health Authority Toba Tek Singh.
6. The Chief Executive Officer, District Education Authority Toba Tek Singh.
7. The Additional Director (Live Stock), Toba Tek Singh.
8. The Deputy Director Agriculture (Extension), Toba Tek Singh.
9. The District Food Controller, Toba Tek Singh.
10. The DSP Special Branch, Toba Tek Singh.
11. The XEN, Irrigation, Burrala, Gogera, Jhang Branch & Sidhnai..

3. Chief Executive Officer (Health) T.T.Singh.
4. District Officer (Civil Defence) T.T.Singh.
5. Executive Engineer, Provincial Highways, T.T.Singh.
6. XEN, (Buildings) T.T.Singh.
7. Assistant Commissioners, T.T.Singh.
8. District Emergency Officer, Rescue 1122 T.T.Singh.
9. Chief Officers, T.T.Singh, Gojra, Pirmahal and Kamalia.
10. Deputy Director, Local Govt. T.T.Singh.
11. Representative of Pakistan Army.

OPERATIONAL STRUCTURE.

ORGANIZATION OF DISASTER MANAGEMENT.

The Deputy Commissioner will be the Disaster Manager. He will be assisted by the aid giving agencies and the army units requisitioned for the job. He will also be the Incharge of operational section. The Assistant Commissioner and the Sector Officers of the affected areas will assist his in the job. The Addl. District Collector will coordinate the activities of the Disaster Management. The resources section will be manned by the MCs for procurement of transport, the Civil Defence Officer for procurement of equipment and the District Engineer, for the procurement of labour.

COORDINATION SECTION.

The Deputy Commissioner will be the Head of the Section. He will be assisted by the District Police Officer, the representative of Army Unit and the Assistant Commissioners. This section will evaluate disaster situation and decide the action to be taken, (under the guidance of the Disaster Manager) coordinate in operation and transmit alert warning. It will also inform authorities concerned and provide financial support.

RESOURCES SECTION.

This section will have 3 cells to be manned by the MCs, Civil Defence Officer and the E.D.O (Works & Services),Toba Tek Singh. They will provide transport, equipment and labour respectively in the event of disaster. It will assess the requirements for the assistance of disaster victims and devise ways and means to avoid damage to infrastructure and losses of livestock and property. It will also handle the situation regarding:-

- a) Foodstuffs.
- b) Clothing.
- c) Medical Supplies.
- d) Shelter.
- e) Construction material.
- f) Machinery and equipments.
- g) Transportation, Aircrafts, Boats, vehicles, seeds, pesticides, fertilizers etc.
- h) Flood boats.
- j) Sand bags and kassis etc.

Medium size motor boats capable for rowing in shallow water are only useful in rescue work during floods. These boats will be responsible for their un-keep and proper maintenance. During flood emergency these boats will be available to be readily shipped to any troubled point. The Assistant Commissioners will collect before hand information

about number of private boats in serviceable conditions available in the district with names of owners and the sites/points where these have been kept. This list shall be supplied by him to the Deputy Commissioner and the Assistant Commissioner concerned. These boats shall be used by the Sector Officer for rescue purpose where needed.

RELIEF CENTRES.

i) The Deputy Director (Social Welfare) will open a Relief Centre in the Tehsil Council Hall. The centre shall receive articles donated by the public and cooked food for flood affectees. This centre shall work round the clock and shall be manned by the staff drawn from MC, CEO (Education) Office, and Social Welfare Officer at TobaTek Singh. The receipt of relief articles in the centre shall be acknowledged against proper receipt which shall be issued by the Incharge of the centre to the donors. Proper record of the receipts and distribution of all such donation shall be maintained in the centre. The DD(SW) shall keep a close liaison with the Officer Incharge of the various Relief Camps in order to assess the actual requirements of displaced persons in each camp. He will prepare a list of relief articles urgently needed for distribution among the displaced persons which shall be released to the local press for information of general public. Generally the following type of articles can be useful in the relief work. :

- 1- Grams (Parched).
- 2- Wheat/Rice.
- 3- Gur/Sugar/Chillies/Haldee.
- 4- Achaar.
- 5- Candles.
- 6- Match boxes.
- 7- Dry Milk/Tea/Sweets.
- 8- Ghee/Edible Oil.
- 9- Cooked food (only in case of immediate need).
- 10- Mixed clothes, including chaddar/dopattas/shirts/trousers/pents/vests/coats/fraks etc.
- 11- Utensils of daily use.
- 12- Oil Stoves.
- 13- Kerosene oil.
- 14- Soap/Tooth Powder/Hair Oil.
- 15- Beddings including durries/blankets/quilts.
- 16- Polythene bags/plastic water bottles.

(ii) The transportation of relief articles to the camps shall be the responsibility of the MCs. For this purpose they will requisition trucks etc. from the transport cell. In running the relief centers, the MCs shall be assisted by the Social Welfare Officer posted at Toba Tek Singh.

(iii) Separate account of the receipt and distribution of relief goods donated by foreign agencies and received through Government shall be maintained.

OPERATION SECTION.

This is the most vital section of the District Disaster Management. This will consist of District Police Officer and Deputy Commissioner. It will implement the scores of actions as chalked out by the Coordination Sector. It will determine the deployment of the "Disaster Services" at District and Sub-divisional level. It will implement the existing operational plans which are elaborated below after approval of the Coordinating Section. The most crucial link in the operation section is the Assistant Commissioner who at the sub-divisional level will be manned on the spot for carrying out all directions and plans. When a final signal is given from the District Headquarters, the Sector Officers shall immediately reach their Sector Headquarters.

PREPARATION AND WARNING.

(i) To give information regarding the flood situation to every village in his sector, the Sector Officer shall satisfy himself that the inhabitants of these villages are duly warned by drum beating or by proclamation or by the loudspeakers to take measures for shifting to the places of safety of human beings and cattle etc. He will arrange for preservation of the main village abadies where possible by raising bunds and diverting the flow of flood water. For this purpose the Sector Officers will make use of voluntary labour arranged through local Lambardars. The sector staff will make the patwaris/Lambardars responsible for giving warning in their respective villages and arranging for voluntary labour and other equipments like "Kahis", sand bags and ropes etc. Their services will also be used for evacuation of population from the areas likely to be affected, channelization of flood water, round the clock, constant supervision of the protective bunds, and arrangements for the feeding and temporary shelter of the displaced persons.

(ii) It will be the duty of the Sector Officers to make selection of safe areas where the people alongwith their belongings can be shifted in case of flood. This will be made before hand. Evacuation will start immediately on receipt of final warning.

(iii)The Sector Officer shall work out the requirements of food for human being and cattle and shall arrange its procurement. He shall send information daily by telegrams or by other quickest possible means of any important change in the flood situation.

DUTIES AT SITE. After reaching their Sector Headquarters the Sector Officers shall send to the Deputy Commissioner the forecast reports to show:-

- (1) At what time the flood is expected to reach by a Particular point.
- (2) What intervals have been taken for warning (The intervals after the warning and before the arrival of the flood be utilized by the Sector Officers in assessing measures of help where needed).
- (3) What shall be its effect on traffic routes?
- (4) Extent of area upto which the warning has been issued.
- (5) Start evacuation.
- (6) Provide food, medical care and housing to the affected People.
- (7) Save cattle and crop/foodgrain/fodder as far as possible.
- (8) Maintain liaison with nearest army unit.
- (9) Raise moral of the people and keep them full of hope.

SUBMISSION OF DAILY SITUATION REPORTS (DSRs)

When the floods would actually precipitate, a report on the following points shall be sent every day at 6.00 A.M. by wireless, telegram or by canal wire to the Deputy Commissioner.

- (1) Name of the Sector.
- (2) Number of villages affected during preceding 24 hours.
- (3) Total number of villages affected.
- (4) Total area affected.
- (5) Area under crop affected and area inundated.
- (6) Population affected.
- (7) Human lives lost.
- (8) Cattle drowned.
- (9) Loss of foodgrain.
- (10) Loss of fodder.
- (11) Number of houses collapsed.
- (12) No.of Relief Centres opened.

(13) No.of persons evacuated.

Except famous and prominent places, the names of villages or chak numbers need not be mentioned in the telegraphic reports).A report should be sent by post immediately in confirmation by each Sector Officer and in this detailed report information should be supplied properly on the proforma prescribed for the purpose.

During the currency of the flood one telegraphic report will be sent at 7.0' clock in the evening daily on the points of general situation and changed situation as compared with the morning report. It will be in particular, the responsibility of the Sector Officer to keep vigilante eye on the condition of High-Ways, Canals and Railway Tracks etc., and also to assist in the restoration of traffic, if possible.

GENERAL.

(i) The Sector Officers will arrange locally if possible boats and boatmen for rescue purposes if and when required. If local arrangements are not possible then they should communicate their requirements of boats/ boatmen immediately to the Assistant Commissioner and Deputy Commissioner.

(ii) In the event of any apprehension of breach of peace over any matter concerning flood, the Sector Officer should immediately ask for police help to control the situation. In case of any such eventuality, he should also keep the Deputy Commissioner and Assistant Commissioner informed of the latest situation.

(iii) The Sector Officers will also suggest if it is necessary to declare any particular area or areas as calamity affected to deal with the situation more effectively.

(iv) The Sector Officers shall go on simultaneously with their flood protection works and also with the works of making assessment of the amount of relief measures required for the Sector including construction of houses, foodgrains fooder, gratuitous relief and the assessment of traccavi needed for seeds and bullocks. The object of the work is that the figures of demand are made available to the officers on relief duty at a very short notice.

(v) Some relief camps may have to be opened for the temporary shelter of the displaced persons from flood affected areas. The Sector Officers shall make selection of suitable places and buildings in consultation with the Lambardars in whose areas such camps are to be located. These are matters of social help and all local resources must be made use of in the supply of food, shelter and other necessities of daily use to the affected persons. If in any case, it is found difficult to do so locally, such cases shall be reported before hand to the Additional Deputy Commissioner and the Deputy Commisioner.

(vi) After the flood subsides, a final report in a concised form showing the exact course of the floods and total area inundated, crop area affected, population dislocated, loss of human life, persons injured, loss of cattle, houses completely washed away, approximate value of damage done to standing crops, private and public property and details of relief measures taken, shall be submitted by the Sector Officers to the respective Assistant Commissioner with their own observations as soon as possible. They shall also make suggestions for future to reduce the extent of the damage.

(vii) Every Sector Officer shall keep a copy of this order with him to know as to what duties he is to perform on receiving a signal. In the case of leave being sanctioned to him before flood duty starts, he will be responsible to hand over those papers to the Officer put in his place and to receive back the papers on return from leave.

(viii) It is needless to say that the flood duty is of the highest priority and a test of the Officers, resourcefulness and initiative. The officers may rest a sure that they will receive full support in any action which is taken by them in good faith. Half hearted measures or double mindedness may prove fatal. The Sector Officers will have to show qualities of leadership and strong nerves.

DUTIES OF THE ASSISTANT COMMISSIONERS.

(i) Assistant Commissioners will be overall incharges of flood relief operations in their respective sub-divisions. They will supervise the work of the Sector Officers and remove bottlenecks where necessary. They will provide necessary advice and guidance to the Sector Officers and maintain a close liaison with the Deputy Commissioner.

(ii) The Assistant Commissioners will also arrange for any type of equipment, transport, boats etc that may be required by the Sector Officers.

(iii) The Assistant Commissioners should immediately visit areas which were flooded last year and make out plans for construction of ring bunds etc., if required. They should further inspect safer places selected by the Sector Officers for the evacuation of people with their belongings in case of floods. While so doing they should plan beforehand the procurement of food supplies both for men and cattle. In case of necessity or further guidance they should get in touch with the Deputy Commissioner.

(iv) The Assistant Commissioners will submit to the Deputy Commissioner a daily situation report about flood situation and relief activities in their respective sub-divisions, in the prescribed proforma. The report submitted by the Assistant Commissioners shall be a final assessment of the situation. They will neither make an under-statement nor exaggerate the magnitude of the floods. In the same context it may also be stressed and emphasized that the Assistant Commissioners instead of depending merely on the reports received from the field will themselves try as far as possible to get first hand knowledge by visiting troubled spots personally.

(v) In some cases, it will be difficult for the Sector Officer to supervise all the flood protection measures on both sides of sheet of flood water. In that case, if the Assistant Commissioners would feel that because of magnitude of flood in a particular area the

Sector Officer cannot pull on successfully with both flood protection work and flood relief measures, then an additional officer shall be detailed to assist the Sector Officer in the matters of relief measures.

(vi) During flood duty the Assistant Commissioners and the Sub-Divisional Police Officers should remain at a place where they are not likely to be marooned. They can go about together or more separately if better results can be achieved in that way.

DISASTER SERVICES.

Six disaster services will be maintained at District and Sub-Divisional level making use of the personal and resources of the implementing agencies. They are:-

- 1) Rescue and Evacuation service.
- 2) Health service.
- 3) Transportation service.
- 4) Communication service.
- 5) Security service.
- 6) Relief and Welfare service.

RESCUE AND EVACUATION SERVICE.

This service will be headed by the Deputy Commissioner, TobaTek Singh at the district level. The Assistant Commissioners of sub-divisions will head the service at their level. The heads of the service will organize rescue and evacuation operations in their respective areas. The district has been divided into 5 sectors for the purpose of Flood Disaster Management. The conditions, operational procedure and duties of the Sector teams have been highlighted in the foregoing paragraphs.

HEALTH SERVICE.

The CEO (Health) / District Officer (Health), TobaTek Singh will organize all medical facilities, train medical and allied personal and ensure the availability of necessary medicines and equipments, medical supplies, blood plasma and other medical facilities for victims of disasters. As soon as a signal is given by the District Administration, the District Officer (Health) shall mobilize his staff in order to check the outbreak and spread of epidemic diseases and to provide adequate medical relief to the affected population. He will organize the activities of the health staff sector-wise in each sub-division. He may divide a sector into sub-sectors in order to organize his work on proper footings. This may, however, be done by him in consultation with the Assistant Commissioner concerned. He will arrange additional staff and set up temporary dispensaries where required. He will also arrange for adequate supplies of medicines and

vaccines. The disinfection of water supply in flood affected areas shall be undertaken by the staff on top priority basis. The District Health Officer will ensure that adequate stock of vaccines etc., is readily available for this purpose. He will also keep the Deputy Commissioner informed about the activities of the Health Department by sending daily reports on the prescribed proforma.

His functions inter-alia will be:-

- a) To oversee the hospitalization of serious cases.
- b) To establish emergency dispensaries for first-aid treatment and medical care of those suffering injuries or illness as a consequence of disaster.
- c) To organize mobile medical teams to cover remote areas or points where access is difficult.
- d) To initiate preventive and curative measures to prevent occurrence and to stop spread of disease epidemics.
- e) To assist in maintaining sanitary conditions in the disaster areas.

RELIEF AND WELFARE SERVICES.

This service will be headed by the DD Social Welfare, Toba Tek Singh. It is aimed at ailing persons who are suffering from the effects of disaster and are helpless. It will also coordinate the organized efforts of the community to improve the living conditions and standards of its members. The functions of this service are enumerated below:-

- a) To make an immediate survey of the disaster areas and make a list of victims.
- b) To provide food and other basic necessities to victims individually or on family basis during the emergency period based on a previous survey.
- c) To establish immediate Emergency Mass Feeding to victims.
- d) To assist in the evacuation of population from danger zones to safer places.
- e) To establish, administer and supervise relief centers in schools, municipal buildings, tents etc., as a temporary shelter to homeless victims.
- f) To record the hospitalized, injured and missing persons.
- g) To attend to local and international inquiries about persons in disaster areas.
- h) To help disaster victims in establishing contacts with relations and friends outside the affected areas.

- i) To refer victims, individuals and families, to appropriate agencies for rehabilitation.
- j) To answer inquiries regarding whereabouts of missing persons.
- k) To assist in tracing out family members of victims and facilitate in reunion of dislocated families.
- l) To arrange activities to meet diversionary needs of disaster victims.
- m) To provide useful knowledge and skill to victims to aid them in their return to normal living.
- n) To coordinate with other Disaster services and aid giving agencies including acceptance and distribution of donations in kind.

SECURITY SERVICES.

The security service comprising police and army will maintain peace and order and protect life and property in the disaster areas. The District Police Officer will head the Police Service while Officer Commanding nominated by the Military authorities will head the army units deployed to rescue the stipulation. The District Police Officer will seek necessary help from the Army Unit deployed for the purpose whenever required.

The service will discharge the following duties:-

- a) To maintain peace and order.
- b) To enforce the law.
- c) To arrest law violators.
- d) To protect evacuated habitations and stock of resources.
- e) To facilitate disaster operations by controlling the movement of individual and vehicles.
- f) To detect if possible and prevent disasters.
- g) To carry out initial rescue and survey operations until the appropriate agency takes over.
- h) To assist in saving life and property.

TRANSPORTATION SERVICE.

The transportation service is meant to manage direct control over all available transport facilities and ensure their appropriate and effective utilization in the disaster areas. All requests will be forwarded to the transportation service being under the charge of Secretary DRTA., Toba Tek Singh assisted by Traffic Police. The functions of this service are:-

- a) To keep inventory of all available Governmental or privately owned earth-moving machinery, scrapers, bulldozers, address of owners, agreement obtained in advance etc.

- b) To ask the Coordinating Section to supply additional transport from nearby areas in case of need.
- c) To demand the following information where transportation is required:-
 - 1) Name and location of requesting party.
 - 2) Nature, weight and volume of expected load.
 - 3) Time of pick-up and place.
 - 4) Destination.
 - 5) Loading points-areas.
 - 6) To determine the type of vehicle transportation and numbers of vehicles needed in each case.

The Incharge of the Transportation service will establish liaison with Civil Defence Officer. The Civil Defence Officer will procure equipment and the will procure labour in order to cope with an emergency.

COMMUNICATION SERVICE.

The Secretary DRTA T.T.Singh will be Incharge of this service. This service will employ all available means and require all possible assistance from various agencies in order to provide, operate and maintain continuous and reliable connections throughout disaster operations. Its functions will be as follows:-

- a) To establish links as requested by the Coordinating Section.
- b) To coordinate, direct and control communications under the guidance of the Coordinating Section.
- c) To provide all assistance and needed support to the agency requesting for communications facilities.
- d) To pass and receive all messages from the Coordinating Section.
- e) To inform immediately upon receipt of Alert Warning, all agencies concerned about the possible need of additional communication facilities and request preparations to be made for speedy action if required by further developments.
- f) To keep a written list of individuals and agencies to be immediately informed upon receipt of alert warning.

AGRICULTURE DEPARTMENT.

The Agriculture Engg: Department will help the Irrigation Department in the supply of earth moving machinery for protection. It will also provide seed for sowing of crops, provide fertilizers and agricultural implements on a loan basis. The Extra Assistant Director of Agriculture, Agricultural Engineer and Superintending Engineer/Executive Engineer Irrigation will work in close collaboration with each other at the time of emergency.

LIVESTOCK.

The DD Livestock and Dairy Development will provide veterinary care, take preventive steps against cattle diseases, supervise purchase of fodder and ensure grazing facilities for evacuated cattle. The allied staff of vaccinations and Veterinary Officers will control the situation within their respective sectors. They will keep themselves in touch with the respective Sector Officer. During the flood emergency the cattle wealth of the District in general and in flood affected areas in particular shall have to be immunized against epidemics. The DD Livestock and Dairy Development, Toba Tek Singh shall arrange on top priority basis vaccination of cattle in flood affected areas in particular and remaining part of the district in general. He will organize the activities of his field staff at sector level. He may divide a sector into sub sectors in worst affected areas for smooth working. This may, however, be done by him in consultation with the Assistant Commissioner concerned. He will arrange additional staff and also set up temporary dispensaries where required. The Assistant Director Livestock and Dairy Development will also ensure regular supplies of medicines and necessary equipments etc., in the flood affected areas. He will keep the Deputy Commissioner informed about the activities of his department by sending daily reports on the prescribed proforma.

ARMY.

The Army Unit, if deployed for as emergency will assist in rescue and evacuation activities, produce transport and communication facilities and assist the Irrigation authorities in bund protection. It will work in close liaison with police and other law enforcing agencies.

RESCUE 1122

The District Emergency Officer, Toba Tek Singh will assist in rescue and evacuation activities as mentioned above. He will procure equipments as well.

COMMUNICATION DEPARTMENT.

The business Manager PTCL Toba Tek Singh will ensure that telephone connections are in working order during the emergency period. It will also maintain co-axial telegraph system and connection with strategical points with nearest telephone exchange.

FOOD DEPARTMENT.

This department will ensure that adequate food stocks are available in the district. It will prepare a plan for special Ration Depots at strategic places besides organizing Mobile Depots.

FORESTS DEPARTMENT.

D.O (Forests) will supply `Abkalani` material for bund protection and assist in protecting the bunds.

INFORMATION DEPARTMENT

The Distt.Information Officer will ensure that the public receive correct and timely information regarding alert and warning messages through news media. He will plan and arrange the visits of newsmen to the district.

VOLUNTARY AGENCIES, RED CRESCENT AND AID GIVING AGENCIES.

These agencies will provide equipment and supply relief material besides assisting in food distribution and collection of funds etc. for relief purposes. They will also help train personnel for relief activities and provide first aid in relief centers.

OPERATING PROCEDURE

The operating procedure of the plan has been described in detail in foregoing portions. The concept underlying the procedure is that the District Control Centre in Deputy Commissioner Office, TobaTek Singh and the Implementing Agencies, both public and private, shall at all times be ready to respond to Alert-Danger warning and information about occurrence of disaster. The Disaster Control Centers and each agency at District level shall at all times be ready to respond to Alert:-

- a) Inform Disaster Coordinator (at respective level).
- b) Mobilize appropriate number of personnel.
- c) Inform all officials and implementing agencies concerned.
- d) Use the communication facilities available, Governmental or non-Governmental, whichever the quickest.
- e) Contact the agency issuing the alert to obtain clarifications approximate time-elements, type and estimated intensity.
- f) Contact the responsible officer at the threatened area and communicate the obtained information and enquire about the local situation.
- g) Discuss and check state of preparedness with the officials concerned and determine appropriate actions to be taken.
- h) Execute the determined action.

DANGER WARNING.

- a) Inform Disaster Coordinator (at respective level).
- b) Mobilize all personnel with all possible speed.
- c) Inform all officials and implementing agencies concerned and request them to take immediate appropriate action.
- d) Use Communication Facilities available, Governmental or non-Governmental whichever the quickest.
- e) Contact the agency issuing danger warning for further information.
- f) Contact the responsible officer in the area threatened and discuss the possible needs of disaster victims estimate the net requirements.
- g) Discuss and determine appropriate actions to be taken.
- h) Execute the determined actions.
- i) Organize the determined actions.
- j) Upon notice of disaster occurrence requiring immediate assistance, the Control Centre inform higher level and implementing agencies concerned requesting them to take appropriate action and execute their Emergency Plan.
- k) Dispatch rescue and evacuation team to the affected area for rescue operations and for positive verification of disaster intensity preliminary assessment of losses and damages and net requirements.
- l) Contact, if possible the responsible officer in the affected area by telephone or by other source of communication to obtain information, clarification on situation and assistance required.
- m) Determine appropriate actions on the basis of available information.
- n) Execute the determined action.

EARLY WARNING SYSTEM

The provision of timely and effective information, through identified institutions, to communities and individuals so that they could take action to reduce their risk and prepare for effective response. District/ Tehsil level stakeholders are to be responsible to disseminate the information.

OFFICERS WHO ARE TO BE INFORMED IN THE CASE OF HIGH FLOOD

1. Deputy Commissioner, Toba Tek Singh
2. District Police Officer, Toba Tek Singh
3. All Chief Executive Officers, Toba Tek Singh
